

AFTER CHRISTMAS

Get rid of the tree after Christmas or when it is dry.
Dried out trees are a fire danger and should not be left
in the home or garage or placed outside against the
home. Bring outdoor electrical lights inside after the
holidays to prevent hazards and make them last longer.

Check with your local community to find
a recycling program.

Christmas Tree Safety

As you deck the halls this holiday season, be fire smart. A small fire that spreads to a Christmas tree can grow large very quickly.

Picking the Tree

- ◇ When purchasing a live tree, choose a fresh green needles that do not fall off when touched.
- ◇ When purchasing an artificial tree, look for the label that reads, "fire resistant." Although this label does not mean the tree won't catch fire, it does indicate the tree will resist burning and

Placing the Tree

- ◇ Make sure the tree is away from any heat source, such as a fireplace, radiator, heat vent or lights.

- ◇ Cut 2" from the base of the live tree before placing it on the stand.
- ◇ Make sure your Christmas tree is not blocking any exits.
- ◇ Keep the tree stand filled with water so the tree does not dry out quickly. Dry trees can be a serious fire hazard.

Lighting the Tree

- ◇ Use lights that have the label of an independent testing laboratory. Some lights are only for indoor or outdoor use.
- ◇ Replace any string lights with worn or broken cords. Check for broken or cracked sockets, frayed or bare wires or loose connections.
- ◇ Never use candles to decorate tree.
- ◇ Use no more than three standard-size set of lights per single extension cord. Read manufacturer's instructions for number of LED strands to connect.
- ◇ Always turn off tree lights before going to bed or when you leave the house.

FACTS:

- ⇒ One of every three home Christmas tree fires are caused by electrical problems.
- ⇒ Although Christmas tree fires are not common, when they do occur, they are more likely to be very serious.
- ⇒ A heat source too close to the tree causes roughly one in every six of the fires.
